

## RESIDENCE NEWS - June 2018

### Birthdays

Once a term we celebrate all the birthdays of our primary learners (and some of the older learners who stay in their blocks) by having a group birthday party. This term's party was held at Pro Act - our Outdoor Activity Centre. The children had great fun playing volley ball and having a braai. They were also given the opportunity to climb our "mountain"

and absail from it. The brave ones could use the zipline to get off the mountain; we all agree that they were very brave because the water in which they landed was quite cold. All agreed that it was a fun-filled day and they are very eager to do it again - very soon!

The senior boys at Pro Act also had a braai and the Senior girls had a pizza party.

Singing and dancing in the boma

Thank you, boys, for helping to get the meat cooked!

Guardians serving the children

Fears are mastered and a taste for adventure inculcated...

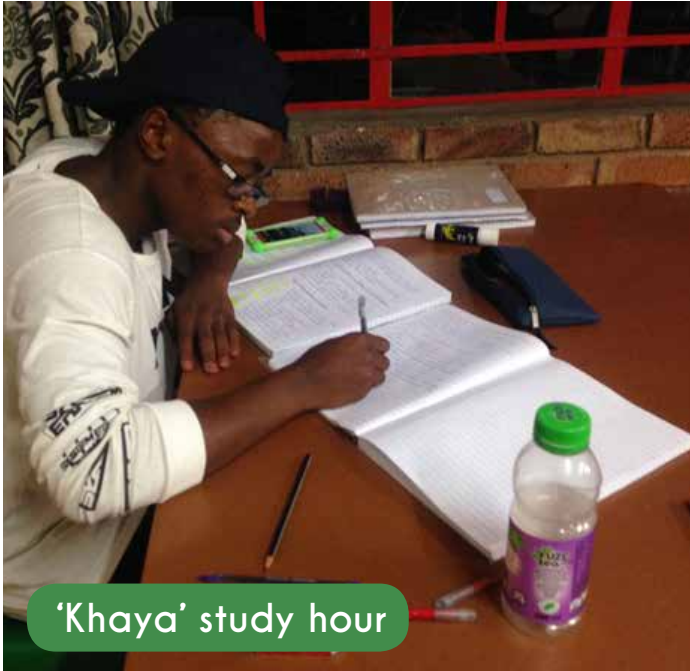

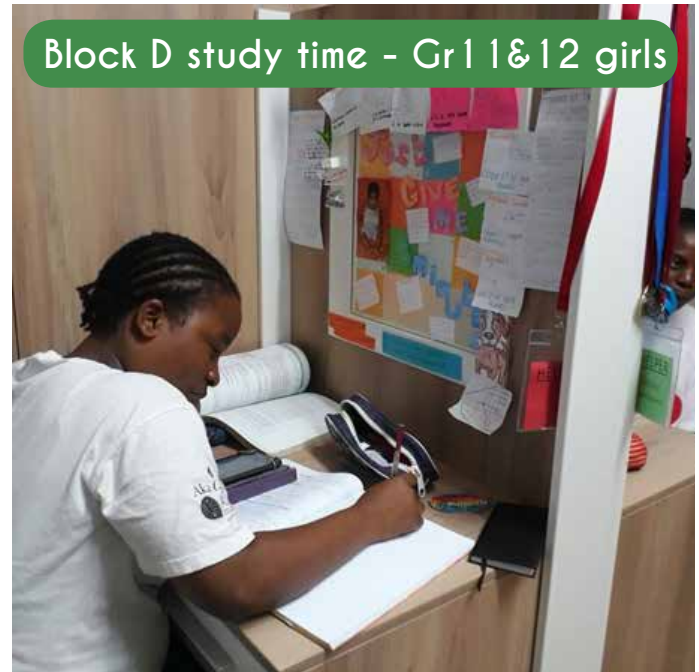

## Preparing for the exams

Boarders do not only enjoy fun and games, they also work very hard. There are set study times during which all have to be seated, busy with their books. These study times are supervised by boarding staff.

However, boarders also study on their own and in groups to optimise their chances of doing well. We especially want to commend our senior learners who are spending a lot of extra hours behind their books. We are looking forwards to seeing excellent results!
